

July 2010 - December 2010

**1. Parliamentary Assistance Allowance**

This allowance is for payment to Employees, Self Employed Service Providers and Accredited Assistants who support the work of the MEP. Any part of this allowance not used remains in the EU budget.

Contracts for all are lodged for approval with the Parliament and held by them. The Parliament makes the payment for employees to the Paying Agent, who deduct income tax and national insurance before making the net payment to the employee. Self employed service providers have to provide invoices for approval firstly by the Paying Agent and then the Parliament, who makes the payment directly to them. Any staff based in Brussels are known as accredited assistants and are paid direct by the Parliament. At no time in any of these cases does any money go into the MEPs bank account.
